GitHub : https://github.com/Shubham-kumar202507 Mobile: +91-9931372825

SKILLS

- **Languages:** C++, JavaScript, C, PHP, JAVA, Python
- **Web & Frameworks:** HTML and CSS, Bootstrap, NodeJS, React
- **Database &Tools:** MySQL, MongoDB, Git, Docker, DBMS, Data Structures & Algorithms (DSA)
- **Core Competencies:** Complex Problem Solving, Cross-Functional Collaboration, Project Coordination, Adaptability

PROJECTS

EKYAM | GitHub | Jan' 2026 – Mar' 2026

- Automated Governance & Community Management: Architected a decentralized community management system enabling autonomous user-led moderation, configuration of custom settings, and automated administrative workflows.
- Event Lifecycle Management: Engineered a robust event module to streamline activity organization, real-time RSVP tracking, and automated participation logging to enhance user engagement metrics.
- Secure Content Distribution & RBAC: A centralized resource-sharing hub with Role-Based Access Control (RBAC), allowing secure document uploads and granular permission management across multi-tiered community architectures.

Spring-boot-chatbot | GitHub | Live Sep' 2025 – Jan' 2026

- Developed a full-stack, web-based chatbot application using Java 17 and Spring Boot (Controller, Service, Model layers) to handle RESTful client-server communication.
- Integrated Google's Gemini API via Spring Web-Client to process dynamic user queries, implementing a fallback mechanism with hardcoded responses to ensure application stability and facilitate testing.
- Streamlined the deployment process by creating custom execution scripts (PowerShell and Batch) and configuring Docker Compose, enabling one-click Maven builds and environment setup.

Nirvana | GitHub | Live Dec' 2024 – Apr' 2025

- Built a responsive music discovery web application using HTML, CSS, and JavaScript that generates customized playlists based on user-selected languages and moods.
- Integrated the YouTube Data API v3 to power real-time music video retrieval and implemented an interactive chat-style interface for direct song and artist searches.

PROFESSIONAL TRAINING

CSE PATHSHALA Jun' 2025 – Jul' 2025

Summer Training

- Concluded 32-day intensive training program in Object-Oriented Programming and Data Structures & Algorithms, solving 20250+ algorithmic challenges to strengthen problem-solving capabilities
- Built 5+ hands-on C++ projects implementing advanced data structures (trees, graphs, hash tables), demonstrating proficiency in scalable code design

IBM Aug' 2024 – Sep' 2024

Hardware and Operating Systems (with Honours)

- Mastered configuration and troubleshooting of core Operating System (OS) functions, identifying and assessing diverse hardware components, including GPU architectures and processing solutions.
- Expanded secure integration strategies for IoT devices and evaluated the viability of emerging VR/AR technologies, covering deployment and cybersecurity principles.

CERTIFICATE

- Computational Theory: Language Principle & Finite Automata Theory (Infosys) Aug' 2025
- Social Networks (Gov. of India NPTEL) Apr' 2025
- The Bits and Bytes of Computer Networking (Google) Sep' 2024
- Responsive Web Design (FREECODECAMP) Oct' 2023

ACHIEVEMENTS

- Achieved 2nd Runner-up in the CYPHERTHON coding challenge. Mar' 2025
- Secured the Winner of the CPEC Club Debate Competition validating superior communication skills. Nov' 2025
- Managed the CPEC Club's social handles, achieving and sustaining the 1st Social Media Ranking among all CPEC clubs for three consecutive months. Sep' 23 – Mar' 2024

EDUCATION

Lovely Professional University, Punjab, India
• *Bachelor of Technology - Computer Science and Engineering, CPGA 7.98* *Since Aug' 2023*

TRIDENT Public School, Muzaffarpur, Bihar
• *11th-12th* *Apr' 2020 – Mar' 2022*

VISHASHVI Public School, Patna, Bihar
• Matriculation Apr' 2019– Mar' 2020
